

Divya Krishnakumar

Data Science Professional | Python | SQL | Machine Learning

Aspire to utilize a strong background in statistical analysis, machine learning, and data visualization to contribute effectively to innovative projects in the technology and data analytics industries.

PROFILE SUMMARY

- Certified Data Science Professional** with IBM Data Science and Applied Data Science with R credentials, combining strong theoretical knowledge with practical, hands-on experience in real-world data projects.
- Proficient in Python, R, SQL, Tableau, Excel, and GitHub**, leveraging these tools for comprehensive data analysis, visualization, predictive modeling, and end-to-end data science workflow.
- Hands-on experience in Machine Learning, Deep Learning, regression and classification models**, including feature engineering, data cleaning, preparation, and exploratory data analysis (EDA) for actionable insights.
- Kaggle competition experience**, successfully developing and deploying high-performance models on structured and unstructured datasets, achieving competitive rankings.
- Exposure to Data Science projects and large-scale datasets (up to 4M rows)** on cloud platforms, implementing scalable solutions and transforming complex datasets into strategic business insights.
- Strong analytical, communication, and teamwork skills with a multi-disciplinary background in computer science, mathematics, and chemistry, ensuring effective problem-solving, collaboration, and continuous learning in emerging AI/ML technologies.
- Knowledge and familiarity with Amazon API Gateway, AWS lambda, Amazon RDS, Amazon Quicksight.

KAGGLE COMPETITION EXPERIENCE

Insurance Premium Prediction

- Predicted insurance premiums using a dataset of 1.2M rows and 20 columns; ranked 2278.

Rohlik Sales Prediction

- Predicted sales using a dataset of 4M rows and 20 columns; ranked 350.

SELF-INITIATED PROJECTS

- Exploratory Data Analysis (EDA) on Salary Data (2024):** Conducted univariate & bivariate analysis, managed duplicates, and performed data cleaning.
- Heart Disease Prediction:** Developed a classification model to predict heart disease presence using machine learning algorithms.

WORK EXPERIENCE

Data Science Intern – Unified Mentor Pvt. Ltd. | May 2025 – Aug 2025

- Analyzed and processed real-world datasets using Python and SQL, performing advanced data wrangling, cleaning, and feature engineering.
- Developed and deployed machine learning models for predictive analysis, achieving a significant accuracy improvement from 19% to 74%.
- Conducted exploratory data analysis (EDA) and visualization to extract actionable insights and support data-driven decision-making.
- Applied statistical techniques and model optimization strategies to enhance performance and reliability of predictive solutions.

CORE COMPETENCIES

Data Analysis & Visualization

Machine Learning & Predictive Modeling

Deep Learning & AI Applications

Data Wrangling & Feature Engineering

Statistical Analysis & Hypothesis Testing

Data Handling & SQL

Cloud Based Data Science Solutions

Exploratory Data Analysis (EDA)

Web Scraping & Data Acquisition

Problem Solving & Analytical Thinking

TECHNICAL SKILLS

- Programming & Tools:** Python, R, SQL, Tableau, Excel, GitHub
- Data Analysis & Modeling:** Regression & Classification Models, Predictive Modeling, Deep Learning, Exploratory Data Analysis (EDA), Feature Engineering
- Cloud Platforms:** AWS
- Other Expertise:** Web Scraping, AI & Development, Kaggle Competitions

CERTIFICATIONS

- Data Analytics and Databases on AWS- Coursera, Dec 2025
- IBM Applied Data Science with R – Coursera, Aug 2025
- IBM Data Science Professional Certificate – Coursera, May 2025
- Complete Machine Learning and Data Science – Geeks for Geeks, Nov 2024

Lecturer – Computer Science – Private Engineering College | 1 Year

- Designed and delivered comprehensive lectures on core computer science subjects, integrating programming, data structures, and software concepts.
- Developed course content and practical assignments to enhance student understanding of computational problem-solving.
- Mentored and guided students in project development and coding best practices, fostering analytical and logical thinking.

Subject Matter Expert – Chemistry – Online Education Organization | 1 Year

- Provided expert instruction and resource development for online chemistry courses, simplifying complex scientific concepts for diverse learners.
- Created engaging learning materials, assessments, and interactive sessions to improve student performance and engagement.

Mathematics & Science Faculty – Schools | 2 Years

- Delivered high-quality mathematics and science education, cultivating analytical thinking and problem-solving skills in students.
- Designed innovative teaching methods and practical exercises to enhance conceptual understanding and critical reasoning capabilities.

MAJOR PROJECTS

Seoul Bike Sharing Demand (R Project)

- Predicted bike-sharing demand using SQL, EDA, visualization, predictive modeling, and reporting.

Customer Satisfaction Prediction (Python Project)

- Built a predictive model for customer satisfaction, including data wrangling, analysis, and evaluation.

Cyber Security Web Threat Interactions (Python Project)

- Identified suspicious web activity through data analysis, feature engineering, and machine learning.

Coca-Cola Stock Price Prediction (Python Project)

- Developed a stock price prediction model with 99% accuracy; managed data wrangling, visualization, modeling, and web deployment.

Climate Change Sentiment Analysis (Python Project)

- Analyzed public sentiment on NASA climate change data; performed modeling, evaluation, and report submission.

Applied Data Science Capstone – SpaceX Falcon 9 Launch (Python Project)

- Predicted the probability of a successful first launch using SQL, data analysis, visualization, and machine learning.

EDUCATION

- **Master in Computer Applications (MCA)** | IGNOU | 2004
- **Bachelor of Science (Chemistry, Mathematics, Physics)** | University of Calicut, Kerala | 1999
- **12th (Higher Secondary)** | University of Calicut, Kerala | 1996
- **10th (Secondary School)** | Kerala State Board | 1994

PERSONAL DETAILS

Address:	BG 121, J Block, GM Infinite ECity Town, Electronic City Phase 1, Bangalore – 100
Languages Known:	English, Hindi, Malayalam & Tamil
Date of Birth:	18 th April 1979
